FOREWORD

Selection of library books for use by deaf children is a difficult and time-consuming task. It was felt that an annotated list might be helpful to those responsible for making these selections. A few years ago such a list was prepared and distributed to schools for the deaf. Since then there has been a growing demand for an updated edition. In response to this demand the Media Services and Captioned Films Branch of the Bureau of Education for the Handicapped, United States Office of Education sponsored the preparation of this new edition.

Members of the committee who prepared this bibliography were:

Mrs. Agnes Orr, Librarian, Utah School for the Deaf, Ogden, Utah.
Miss Joan Smith, Resource Teacher, Alexander Graham Bell School for the Deaf, Chicago, Illinois.
Mrs. Frances Tanenbaum, Librarian, Pennsylvania School for the Deaf, Philadelphia, Pennsylvania.
Miss Goldie Trboyevich, Director of Media Services, Kendall Demonstration Elementary School, Washington, D. C.

Each committee member had ready access to an educational materials center and full complement of recent children's books. Selections were made on the basis of the following criteria:

1. Selections are supplemental rather than basic.
2. Grade span is K-12. However, the emphasis is on K-6. Selections are designated as primary, intermediate, or advanced, based on the evaluator's knowledge of the reading abilities of deaf children. Strict delineation is not implied.
3. Prices indicated are taken from the 1970 and 1971 Books in Print and are subject to change.

All books were given suggested Dewey classification numbers and/or marked E (easy) or F (fiction). Illustrators are indicated only when other than the author.

Our special thanks go to Miss Patricia De Vatz, Alexandria, Virginia, who did all the typing and much more, and to Miss Donna Riffel, Junior in Special Education, Illinois State University, Normal, Illinois, who submitted several titles.

Appreciation is expressed to the Media Services and Captioned Films Branch, Bureau of Education for the Handicapped, United States Office of Education, for its support in the form of a contract which made this project possible.
